THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4, Porchester-terrace North, Paddington,
19th February, 1850.

DEAR SIR,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, and a brick having been laid before the 1st of June last—that is to say, in three months and one week; I stuccoed the walls throughout with Parian; papered some, painted and marbled others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,

WM. SCANTLEBURY.

Messrs. Chas. Francis and Sons, Store Street.

MARTIN'S PATENT
FIRE-PROOF AND ORNAMENTAL CEMENT,
APPLICABLE FOR
ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public so many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and SON, however, feel called upon to observe, that, from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 14½ per cent in material, full 7 per cent less in price, with an additional saving in labour of 10 per cent., by its allowing about forty minutes for working, being less than one-fourth of the time of other cements of a similar nature, therefore worked with greater facility, making together the enormous saving of full THIRTY THREE PER CENT; the advantages therefore cannot admit of doubt. Squareness, whiteness, beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Patentees' General Works, 181, Drury-lane, London.—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterer.

JOHNS and CO.'S
PATENT PERMANENT STUCCO WASH,
WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash ever offered for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other—DOES NOT WASH OFF—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Prison Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 250 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no mastic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; sets becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HARDY, at the Warehouses, 31, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

IMPROVED DRAINAGE
BY ROYAL LETTERS PATENT.

STANDING, FRANKLIN, & STANDING,
Sole Patentees and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE. Offices, 28, Cornhill, entrance in Change-alley; Factory, Brunton's Wharf, Commercial-road, Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in those qualities so absolutely essential to a perfect, and cleanly made of drainage. From the great and uniform amount of pressure, and peculiar construction of the machinery allowing the air to escape, and in manufacturing, their pipes are entirely free from air-bubbles, proving their greater strength, durability, and entirely preventing the moisture percolating through; they are much smoother on the inside, insuring a perfect passage for the sewage, and preventing any deposit.

Specimens may be seen at the offices, 28, Cornhill, where prices, &c., may be obtained, and licenses granted for the use of the patent machine.

DRAIN PIPE WORKS.—T. SMITH,
ORIGINAL LAMBETH POTTERY,
78, PRINCES-STREET, LAMBETH.

SUPERIOR GLAZED STONEWARE DRAIN PIPES,
Invented and manufactured by
WILLIAM NORTHEN, UNION POTTERY, No. 14, VAUXHALL WALK, LAMBETH.

W. NORTHEN begs to inform surveyors, contractors, builders, water companies, &c., that he has completed "Northen's" new patent machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON-TRAPS, &c. &c. Amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it ensures perfect uniformity in form and size both of pipes and sockets, the due baking of a different and better description than any others now in use; and the pipes and sockets being made by our persons are secure from apprentices.

W. N. invites particular attention to the superior quality of the glaze used in his manufactory, which is equal to glass, and rendering drainage in the driest impossible. CLOSET PANS, with basin and fixed traps, and improved moulds white glass.—W. NORTHEN'S PIPES MAY BE INSPECTED AT THE FOLLOWING PLACES, WHERE ORDERS ARE RECEIVED:

Rosherville Gardens, Gravesend, Blackfriars, and Millbank, Westminster.—Martin and Wood's, Market Wharf, Regent's Park Basin.—C. Hilton's, Crown and Horseshoe Wharf, No. 4, Upper Thames-street.—Long and Son, Richmond.—Freeman and Richardson's, South Wharf, Paddington.—G. Firth's, Cambridge Heath Wharf, Hackney.—W. Perry's, Canal Bridge, Old Kent-road.—Millwood and Pearsall's Wharf, Bermondsey, Essex, and Cross Wharf, Hammersmith.—J. Corbett's, Depot, Britton-street, Clerkenwell, and at the Pottery.
